AWIS Valve Replacement Seal

- * Do you have leaking valve seal?
- * Available for Dn 80, 100 and 150mm valves
- * Normally it can take up to 1 hour to remove the gland bolts, remove the old seals and replace it with new ones.
- * Now you can repair the leaking valve seal in less than half the time, thus saving money and time. Using the New **AWIS Valve replacement Seal's**
- * AWIS Valve Seals are available EDPM or nitrile Rubber and comply with AS 4020 - Suitable for Drinking Water

TECHNICAL DATA SHEET

Product Description: EDPM 70 IRHD
Potable Water Grade to AS 4020.

Typical Properties

W.R.P. Compound Ref.:	9000
Colour:	Black.
Hardness Shore A:	70° ± 5
Tensile Strength MPa:	7
Elongation %:	150
Specific Gravity:	1.63
Operating Temperature range:	up to 100° C.
Typical Applications:	has excellent weathering resistance, good resistance to salt water and to a wide range of chemicals.

TECHNICAL DATA SHEET

Product Description: Nitrile 70 IRHD
Potable Water Grade to AS 4020.

Typical Properties

W.R.P. Compound Ref.:	3082
Colour:	Black.
Hardness Shore A:	70° ± 5
Tensile Strength MPa:	12.
Elongation %:	250
Specific Gravity:	1.2.
Operating Temperature range:	up to 100° C.
Typical Applications:	has excellent resistance to water, grease, animal fat and oils. Also suitable use in contact with a wide range of chemicals.
